Subject No. 59.
Transfer of Kundur Magani to Channagiri Taluk.

Summary of discussion.—Kundur Magani now belongs to Honnali. It should be added to Channagiri. At any rate, all the atchkat of the Sulekere Tank should be in one jurisdiction.

Dewan's reply.—The transfer of Kundur to Channagiri Taluk seems *primâ facie* a reasonable proposal. The Deputy Commissioner's report will be called for and considered.

Subject No. 60.
Objections of villagers to grant of unassessed Government waste for cultivation.

Summary of discussion.—When applications are made for assessment and grant for cultivation of unassessed Government waste, such applications are often rejected on the ground that the villagers object to the grant owing to alleged need for grazing notwithstanding the fact that land has been assigned free for grazing purposes. The objections of the villagers in such cases should not be entertained.

Dewan's reply.—Where free grazing land has been assigned, the objection of the villagers would be frivolous and the applications for cultivation should not be rejected. Representations in individual cases should be made to the Deputy Commissioner, and if necessary, by appeal to Government.

Subject No. 61.
Better conservation of water from Sulekere Tank and proposed construction of some more vaddus.

Summary of discussion.—The water in the Sulekere Nala flows throughout the year and there are four or five vaddus from Sulekere to Katlagere and the lands below them are watered by these vaddus. If Government constructs some vaddus from the vicinity of Timmanahalli and Muktanahalli to the river at Harihar, nearly 50 or 60 thousand rupees worth of lands will be cultivated. Mr. Madhava Rao has personally seen the place and ordered the Assistant Engineer to prepare an estimate for the work and submit it for orders. The work should be pushed forward.

Dewan's reply.—The project will be considered when sent up in due course. The persons interested should again press the subject on the Deputy Commissioner's attention.

Subject No. 62.
Punishment for neglect of Survey boundary marks.

Summary of discussion.—*In re*, repair of Field Boundary marks(Bandhs), much time is lost in issuing notices, &c., to the raiyats who have allowed their Bandhs to go to ruin. Formerly Amildars had the power to punish promptly such as neglected their Bandhs and allowed them to deteriorate. For want of this power the Patels and Shanbhogs are held responsible to compel the negligent raiyats to repair their Boundary marks.

Dewan's reply.—The recently enacted rules under the Land Revenue Code make sufficient provision for the repair and maintenance of Boundary marks.
